

Design

Coaching

I will work alongside you and show you horticulturally correct gardening practices, or simply answer questions you may have on-site or over the phone. We can make regular appointments, or I am glad to be on call for when you need me most.

A design on paper can be a useful guide, allowing you to implement your garden plan in phases at your own pace. My clients' needs and preferences guide the design process.

Gardens by Eve

On-site professional guidance for all your ornamental gardening needs

769-3319

**Experienced and recommended:

information as well as client reviews.**

Fine Perennial Maintenance

I will keep your gardens looking tip top throughout the season or can come by once or twice to spruce things up – a service some clients appreciate when leaving town for extended periods.

Consulting

I can help you know what plants will do well given your particular site conditions and lifestyle needs. When you do it right the first time you can save money and feel more confident that your new plant choice will succeed.
